Notification to Valued Customers April 6, 2020

Early this afternoon, April 6, 2020, Offshore Systems Inc., (OSI) was notified by the Alaska Department of Health that they had a NEGATIVE result from COVID 19 tests that were conducted in assessing the recent death of our employee at our facility in Dutch Harbor, Alaska.

Based on the negative result of the recent test, and on the advice of health officials involved in the assessment, OSI will continue to implement our on-going COVID 19 safety protocols in order to support employees, essential vendors and valued customers. Like many of you, we are still deeply saddened by the loss of our good friend and colleague, however, we remain committed and prepared to serve you, our valued customers, during this challenging period.

With that in mind, our operations at the OSI facility in Dutch Harbor, Alaska will continue in conjunction with adhering to COVID 19 health and safety protocols and orders. As our facility is operating with limited personnel, we ask that you continue to direct all service order requests to our office via telephone or VHF radio as well as following CDC guidelines for social distancing.

For information about your specific operations or if you have any questions related to implementation of our COVID 19 health and safety protocols as they relate to overall facility operations, please contact our Unalaska Facility Managers at the following numbers:

Nick Reed - (406) 885-2381 or by email: nreed@offshoresystemsinc.com or
Santiago Ramirez - (907) 359-2833 (cell) / 907-581-1827 (office) or by email: sramirez@offshoresystemsinc.com
